

Myshell Howler Biography

Myshell Howler has been working with pets, especially dogs, for over 18 years. Dogs have been her passion whether it has been a pet shop, veterinary clinic, or rescue work including tracking dogs living in the wild and gaining their trust, rehabilitating and re-homing them.

Happy Howl'er Heaven Synergy, her own K-9 bed and breakfast/doggie day care business, formerly known as Happy Crid'ers K-9 Heaven, has been in operation for 14 years.

Myshell began self-improvement courses aggressively four years ago, including becoming a Reiki Master/Teacher, A Deeksha Oneness Blessing Giver, and has completed three years of a group year course to become a License Practitioner with the United Centers of Spiritual Living. During these courses Myshell quickly learned how the dogs were mirroring her behaviors. Apply these teachings to her personal dog training and canine business right away made the dogs' lives and her so much more rewarding and harmonious. Eager to share this information, she began private behavioral sessions with some clients and began teaching an eight week course at her facility this past year.

Myshell also has a pet therapy cat that loves to riding on her motorcycle and visits patients at a local Alzheimer's unit. She also volunteers her time to a local spiritual center giving Reiki to animals once a month.

A local non-profit group called K-9 Freedom (that recently became a chapter of the statewide LOHV of Ohio) was also started by Myshell. K-9 Freedom is now beginning a children's canine education program to be volunteered at the schools to teach children how to behave and approach dogs.

“If it has to do with animals, Divine Love, and living in harmony, I am all for it.”
